

## Panmedia.SongVoting – a Song Voting module for Orchard V1.10

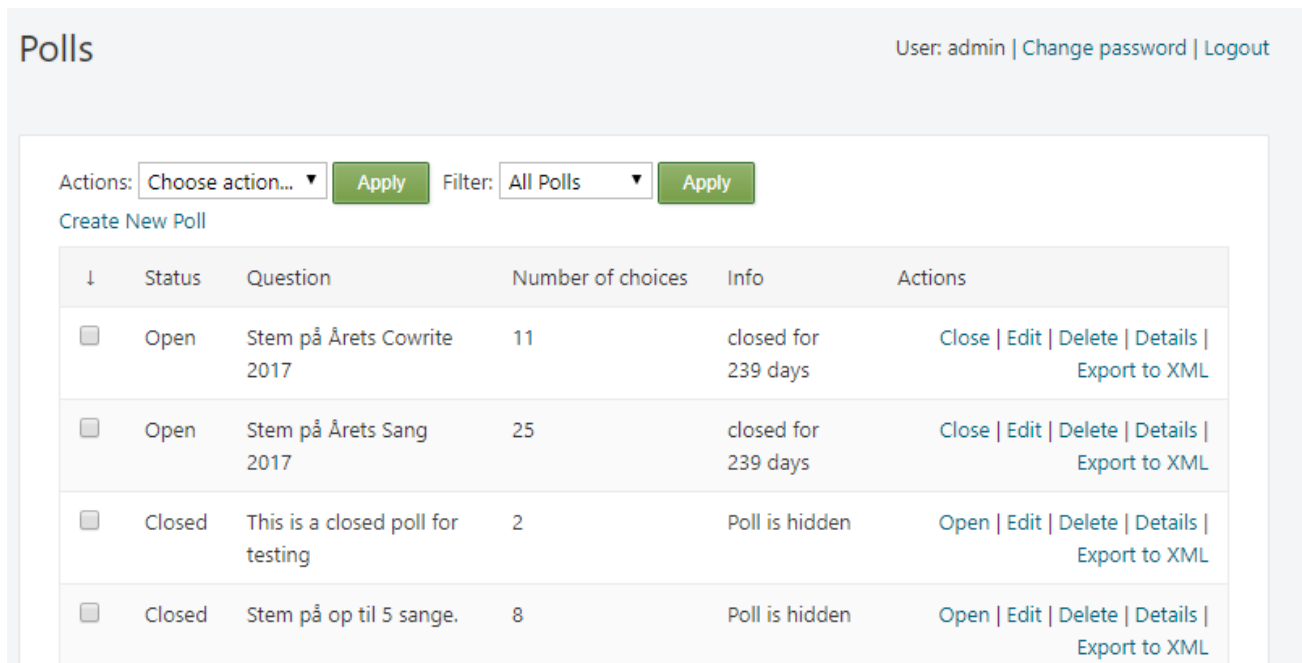

This module was developed as part of the artist community site <http://sang-skriver.dk> – a web site dedicated to the largest songwriter’s association in Northern Europe, Aarhus Sangskriverværksted.

The source code for this module is available on GitHub: <https://github.com/finnvs/Panmedia.SongVoting>

The ‘jumping-off point’ for establishing this module was the excellent work already done in the AdvancedPoll Module published to the Orchard Galley five years ago by the SZTE Orchard Team. (Link: <http://gallery.orchardproject.net/Packages/Orchard.Module.AdvancedPoll>)

I fixed a bunch of versioning update issues, extended the standard voting mechanisms already in place in order to accommodate the specific needs of the annual songwriting competition held by AASV, and I added some extra logic and UI to handle upload and display of songs from youtube and soundcloud in a separate modal window, so the end user can hear and see what he / she is voting for.

Screenshots:

The screenshot shows the 'Polls' admin interface. At the top right, it displays 'User: admin | Change password | Logout'. Below this, there are controls for 'Actions' (a dropdown menu set to 'Choose action...' and an 'Apply' button) and 'Filter' (a dropdown menu set to 'All Polls' and an 'Apply' button). A link 'Create New Poll' is visible. The main content is a table with the following data:

↓	Status	Question	Number of choices	Info	Actions
<input type="checkbox"/>	Open	Stem på Årets Cowrite 2017	11	closed for 239 days	Close   Edit   Delete   Details   Export to XML
<input type="checkbox"/>	Open	Stem på Årets Sang 2017	25	closed for 239 days	Close   Edit   Delete   Details   Export to XML
<input type="checkbox"/>	Closed	This is a closed poll for testing	2	Poll is hidden	Open   Edit   Delete   Details   Export to XML
<input type="checkbox"/>	Closed	Stem på op til 5 sange.	8	Poll is hidden	Open   Edit   Delete   Details   Export to XML

2) The Edit Poll screen in Orchards admin UI. This screen allows the admin to set a poll title, a poll question, as well as start and end dates for showing the poll and the maximum number of votes each registered Orchard User can have. The checkboxes represent choices for hiding the poll from end user viewing, to show or not show a 'Vote' button (manual control of start and stop of voting process, while users may still view and hear the songs before and after the actual votes are taken) as well as setting flags for 'Music Poll Y/N' and 'Test Mode'.

3) The last part of the Orchard Admin UI page shows a list of songs in the poll, allowing the admin to delete an entry if needed. This section is added to automatically when a registered user makes an entry for the Song Vote and uploads a video or song URL and chooses an active Song Vote from a dropdown menu.

Titel:

Lukker Verdenen Ind

- skrevet af: Daniel Jo

Beskrivelse:

Har egentlig ikke skrevet i flere år, men i juleferien, skete der noget. Sangen er skrevet over et par aftener i julen og indspillet på min hems, ligeledes over to aftener. Enjoy
